

Water Wise Workshops

14th Season

A series of free, hands-on, waterside workshops for children ages 6 to 10.

July 12

Your Watershed and the Water Cycle: Build a watershed and see how it works!

July 19

Water Plants and Animals: Discover the plants and animals that live in the water and learn how you can protect them.

July 26

Water Bugs Mystery: Discover and identify water bugs and learn the secret of how they can tell us about water quality.

August 2

Water Testing and Conservation: Test water quality and learn how to protect it.

August 9

Water Wise Photography: Learn how to photograph our wonderful water-world.

August 16

Water Wise Wizards: Putting together all you have learned during the Water Wise Workshops, you “magically” become a steward of your environment.

Day and Location: Wednesdays (10 - noon): Westborough, Lake Chauncy

More information: www.oars3rivers.org

Registration required: call OARS at 978-369-3956 or email office@oars3rivers.org

Children should be dressed for walking in shallow water!

Parents are requested to stay throughout the workshops and are encouraged to bring lawn chairs!
